# KRISTIN DOZIER IS ALL TALK.

Kristin Dozier has a  
**long history of sketchy  
ethical choices...**

Dozier bought her home from a developer for **\$90,000 below market value AFTER voting** to give him nearly \$1,000,000 of our tax dollars.

Dozier voted for controversial projects that directly benefited her **family's construction business.**

And now, her campaign is coordinating with a **secret dark money group** so we don't know who is funding her campaign.

## PROMISES MADE, PROMISES KEPT.

*“Tallahasseeans are sick and tired of politicians using their elected office for personal gain. I promised you I would clean up City Hall, and during my first year in office I spearheaded comprehensive ethics reforms – passing the strongest ethics rules in the state.”*

A stylized, handwritten signature in white ink, appearing to read "John".
